THE HOSPITAL

Grandview Medical Center is a 70-bed Joint Commission-accredited hospital licensed by the Tennessee State Department of Health. The hospital was built in 1998 and encompasses over 100,000 square feet. Grandview serves approximately 59,000 patients each year and offers a wide range of specialized services and programs. In addition to the main hospital, the campus also features an adjoining four-story, 60,000 square-foot medical office building and an 8,000 square-foot inpatient mental health facility, Mountainview Treatment Center. Over 123 privately practicing physicians treat and refer patients to the hospital, with 35 physicians and many nurse practitioners practicing full time in the area.

In addition to operating the hospital and Mountainview Treatment Center on the Jasper campus, Grandview Medical Center also operates North Valley Medical Plaza in neighboring Dunlap, Tennessee. This 24-hour facility serves as an emergency room and inpatient/outpatient facility for Sequatchie and surrounding counties.
