## **CAPITAL MEDICAL CENTER RECEIVES PRESTIGIOUS AWARD**

**Capital Medical Center has received a very prestigious award naming them one of only five hospitals nationwide recognized for overall patient satisfaction for Inpatient Services.**

These awards recognize the hospitals that excel in their ability to gain insight into their patients, employees, physicians, and community through research and to use that information to build excellence within their organization. Chief Nursing Officer, Dr. Lynn Peoples, announced, “We are very proud and excited to be recognized at the national level particularly because this is about our patients, their families, and their experiences at our facility. We know that our employees are the best in the healthcare industry and to be acknowledged in this manner is most gratifying. We look forward to providing exceptional care for our growing community in the years to come.”

This award was given by HealthStream Research Excellence through Insight awards which are based on the national databases built by The Jackson Organization and Data Management & Research. HealthStream Research represents more than 1,100 healthcare facilities accounting for more than 22% of the nation’s acute-care hospitals.
