

Here's to a Healthier Cumberland Valley and Plateau

At White County Community Hospital, our goal is to deliver the best healthcare available in the White County Region as we seek to exceed the expectations of all those we serve. With the help of dedicated physicians, employees, volunteers and Board members, along with your continued support and encouragement, we continue our passionate pursuit of excellence. While delivering quality healthcare is the single most important contribution we make, there are many other ways we make a positive impact on the communities we serve. Here are a few of the other ways we are making a difference.

Over \$1.37 Million In Capital Improvements

In 2010 we began preparing for growth in the coming year. We purchased surgical and arthroscopic equipment for the benefit of our Orthopedic department, with additional capital expended for Laparoscopic equipment. The investment we made to aesthetic improvements in our facility exceeded \$70,000. In fact, we invested over \$1.37 million in our facilities last year which, in addition to the above, included technology replacement, information technology additions/updates, and routine facility upkeep and maintenance.

Contributing To Our Local Tax Base

Last year, White County Community Hospital paid over \$346,000 in taxes which helped to support our city, county and state. This included sales taxes as well as property taxes. These dollars help to support local schools, development of roads, recruitment of business and industry, and other needed services.

Helping Those In Need

White County Community Hospital provided over \$48.6 million in uncompensated care last year, which included the amounts not covered by government-sponsored programs such as Medicare and Medicaid. This amount also includes more than \$5.2 million for charity care, discounts for the uninsured, and bad debts, incurred as we cared for many people without sufficient resources.

Adding New Physicians

During the past year, White County Community Hospital added a three physician orthopedic group as well as an ENT to our hospital staff, and we are planning on adding additional service lines and providers in the very near future.

One Of Our Community's Major Employers

Providing an annual payroll of over \$10.4 million to 191 employees, White County Community Hospital is one of the largest employers in this region. We thank you for choosing us for your healthcare needs. With your support, together we can continue making healthcare and our community better.

Bill Little, CEO
White County Community Hospital

Community Benefit Report 2010

Charity and Other Uncompensated Care

\$48,688,538

Includes unpaid cost of government-sponsored programs such as Medicare and Medicaid as well as charity care, discounts for the uninsured and bad debts, incurred as we cared for many people without sufficient resources.
