

Here's to a Healthier Southeast Missouri Region

At Mineral Area Regional Medical Center, our goal is to deliver the best healthcare available in the Southeast Missouri Region as we seek to exceed the expectations of all those we serve. With the help of dedicated physicians, employees, volunteers and Board members, along with your continued support and encouragement, we continue our passionate pursuit of excellence. While delivering quality healthcare is the single most important contribution we make, there are many other ways we make a positive impact on the communities we serve. Here are a few of the other ways we are making a difference.

Over \$1.5 Million In Capital Improvements

Last year we renovated the second floor the hospital and added two behavioral Health Units, the Mineral Area Geriatric behavioral health unit designed specifically for people over the age of 55 and the Mineral Area Behavioral Health unit designed for those ages 17-54 as well as renovated physician clinics in the Medical Office Building.

In fact, we invested over \$1.5 million in our facilities last year which, in addition to the above, included technology replacement, information technology additions/updates, and routine facility upkeep and maintenance.

Contributing To Our Local Tax Base

Last year, Mineral Area Regional Medical Center paid over \$850,000 in taxes which helped to support our city, county and state. This included sales taxes as well as property taxes. These dollars help to support local schools, development of roads, recruitment of business and industry, and other needed services.

Helping Those In Need

Mineral Area Regional Medical Center provided over \$69 million in uncompensated care last year, which included the amounts not covered by government-sponsored programs such as Medicare and Medicaid. This amount also includes more than \$7.5 million for charity care, discounts for the uninsured, and bad debts, incurred as we cared for many people without sufficient resources.

Adding New Physicians

During the past year, Mineral Area Regional Medical Center added 15 new physicians to our highly respected medical staff, including specialists in Radiation Oncology, Urology, Pain Management, Family Practice, Obstetrics and Gynecology, Emergency Medicine and Psychiatry.

One Of Our Community's Major Employers

Providing an annual payroll of over \$22.9 million to 430 employees, Mineral Area Regional Medical Center is one of the largest employers in this region. We thank you for choosing us for your healthcare needs. With your support, together we can continue making healthcare and our community better.

Jeannette Skinner, CEO
Mineral Area Regional Medical Center
